I RESUME

Luca Pulvirenti is currently a lecture at Accademia di Belle arti in Palermo and a freelance teacher within various international academies and schools: his main topics are animation, videographics and computing for visuals.

He conducts workshops on expanded cinema and tra-digital animation as part of international meetings or within the european educational program.

He is the founder and creative director of mammasonica, an audiovisual collective with a trans medial distinction, exploring the boundaries of facade projection and ever-evolving from A/V performances to luminous design, interactive installation and new media theatre.

mammasONica

ARTISTIC COLLECTIVE

mammasONica performs as artistic collective with a trans media distinction, exploring the boundaries of facade projection and ever-moving from A/V performances to luminous design, interactive installation and new media theatre.

Their performances achieved international awards and academic recognition, often presented during university's lecture as a way to handle locations with a challenging identity.
